About

Jean received her PhD degree from the Department of Information Systems at the City University of Hong Kong. Before joining the Hong Kong Baptist University, she was with the University of Hong Kong. Previous to her research studies, she worked as an instructor at the City University of Hong Kong. Before joining the City University of Hong Kong, she was an IT practitioner in the Hong Kong banking sector for a few years.

Research Interests

- Financial Decision Support Systems
- E-Learning
- Social Computing
- Intelligent Agent Technologies
